

An adventure that lets children grow.

For day trips, school journeys, project weeks and after-school clubs. Little organising for you — maximum spirit of discovery for the children.

WHY LOCALNAUTS

A GPS treasure hunt through the history of the Bohemian Village.

In small groups, the children solve puzzles at 10 stations in Rixdorf — on the spot. They read traces on historic houses and courtyards, make team decisions at six stations — voted on and reasoned, with no points at stake — and piece together how Bohemian families arrived here in 1737. The roles of navigator, chronicler and naut rotate before every station: the children navigate, decide and solve it themselves — a place of learning outside school, right in the neighbourhood.

“I can do this.”

Self-efficacy as a side effect: the children solve the tasks on their own and as a team — Nauti, the neighbourhood guide, only gives step-by-step hints.

HOW IT WORKS — READY IN 5 MINUTES

1

Book your codes

Plan it right away, no customer account needed. Invoice to the school included.

2

Split the class into crews

2–6 children per team and device, 4–5 is ideal. Roles rotate along the way.

3

Set off and play

Runs as a web app in the browser. GPS guides from station to station.

KEY FACTS

DURATION 120–180 min. incl. intro, walking & breaks	WHOLE SCHOOL DAY 4–5 hrs · day trip
STATIONS 10 + 1 bonus	AGE 8 and up · years 3–6
LOCATION Berlin-Rixdorf · 2.5 km on foot	LANGUAGES German / English
TECHNOLOGY 1 device per team · runs in the browser	VALID FROM 1 November 2026

PRICES · RIXDORF ORBIT · VALID FROM 1 NOVEMBER 2026

You pay per team, not per child.

NUMBER OF GAME CODES	PRICE PER CODE
1–3 codes Small groups, clubs, half classes	€49
4–7 codes One school class	€45
8 codes and more Whole year groups, project weeks, holiday camps	€42

One game code unlocks one team: one device, 2–6 children (4–5 is ideal). You book as many codes as you have teams — the more codes, the cheaper each one becomes. No rounding up to a size that does not fit your class. All prices include 19 % German VAT.

WHAT THAT MEANS FOR YOUR GROUP

Half a class or a club 15 children · 3 codes €147	One school class 25 children · 5 codes €225	A large school class 30 children · 6 codes €270	A complete year group 50 children · 10 codes €420
---	---	---	---

Also included in the group price: invoice to the school, the teachers' companion booklet with reflection questions for every station, a wave plan for your group size and a video call beforehand. The codes are not tied to a date and never expire.

Funding through the German Bildungs- und Teilhabepaket (BuT)

For children entitled to benefits, one-day school trips are reimbursed at their actual cost — capping them at a maximum amount or a set number of trips is not permitted. On request we state the amount per child on the invoice, ready for form Schul II 171-15. Whether it is covered in your case is for the school or provider to settle with the responsible office before booking.

Source: Berlin Senate Department for Education, Youth and Family — guidance note on school trips (BuT)

Social & education rate — 50 % off for up to ten groups per school year

For youth welfare organisations, non-profits and schools on a particularly tight budget. An informal enquiry is enough, we ask for no proof; the quota is limited. Once it is used up, write to us anyway — we will find a way.

FOR THE CLASSROOM

Learning for life, by playing.

Future skills — built in, not bolted on. Ideal as a place of learning outside school for a project week, a day trip or an after-school club.

- Collaboration & communication
- Critical thinking & looking closely
- Creativity & problem solving
- Self-direction & self-efficacy
- Deciding together, voting, playing fair
- Knowing and shaping your own neighbourhood

CURRICULUM LINKS · RAHMENLEHRPLAN BERLIN-BRANDENBURG

Connects to Sachunterricht (years 3/4: living together, rules, participation) and Gesellschaftswissenschaften (years 5/6: democracy & co-determination) — plus the cross-curricular themes of democracy education, cultural education and media literacy. Every fact in the game is backed by a source.

PRACTICAL MATTERS FOR TEACHERS — YOU STAY IN CONTROL

Supervision & waves

The children navigate and decide for themselves; accompanying adults hold the duty of supervision and step in where safety or comprehension calls for it. **Localnauts does not replace supervision** — your institution remains responsible for road safety and for local rules. The class sets off in waves of about 3 teams, the next one 15 minutes later — so the whole class never piles up at one station. How many adults you need is set by your school; we plan the waves with you in the intro call.

Inclusion & the paths in Rixdorf

Rixdorf grew over centuries: cobblestones, uneven paths and narrow pavements shape its streets. **The route is therefore not suitable for wheelchairs** — we say this plainly so that you can plan reliably. It matters to us that every pupil can take part:

- **Individual needs:** whether mobility, hearing, sight or learning — tell us in the intro call.
- **Ways to take part:** we talk through openly what is possible for your group on this route — and what is not.

Data protection & photos

Taking part needs no child accounts and no personal data about the children. Game progress, photos and logbook stay in the browser on the group's device; they are not transferred to us and not published. **For school groups the photo function can be switched off.** We hold your booking details and the game code. Which technical and purchase-related data is processed is set out in our privacy policy on localnauts.com. Nothing has to be installed from an app store.

Weather & flexibility

If it rains, take shelter, pause or postpone — the game state is kept, and the codes have no expiry date.

Free 20-minute intro call.

On a video call we show you what the adventure looks like for your class, project week or club — no obligation, including a wave plan for your group size.
